

Bureau of Kidney Health Care Verification of Social Security Number

The following may be used to verify the applicant's Social Security number:

- A. A copy (front and back) of the applicant's Social Security card issued by the Social Security Administration, or
- B. An allowable substitute as follows:
 - 1. A copy of a Social Security Administration document which verifies the Social Security number; or
 - 2. A copy of a valid Medicare or Medicaid card, if the Medicare account was established in the applicant's own Social Security number and the Social Security number is printed on the Medicare or Medicaid card. (The Social Security number will usually have an A, T, or M after it).

Remember that we do not accept photocopies of metal Social Security cards. Metal Social Security cards are not issued by the Social Security Administration.

You must use one of the documents listed above.
